SUMMARY

Computer Science undergraduate (First Class, **4.92/5.0** CGPA) and **3× Hackathon Winner** with expertise in **software engineering, AI, and fintech solutions**. Proficient in **React, Python, JavaScript, and TypeScript** with experience developing secure and scalable applications. Passionate about leveraging technology, and AI to build innovative solutions that drive real-world impact.

EDUCATION

Redeemer's University, Ede, Osun State, Nigeria
B.Sc. Computer Science (Expected **2027**)
- **CGPA: 4.92 / 5.00 – First Class Honors**
- **2x** Dean's List, Gold Scholar **(2023/24)**, Bronze Scholar **(2024/25)**
- Relevant Coursework: Data Structures & Algorithms, AI, Database Systems, Software Engineering.

EXPERIENCE

Co-Founder & Frontend Engineer — Campor(Oct 2025 – Present)
- Co-founded Campor, a campus-based online marketplace that enables students to buy, sell, trade goods and services safely within the university.

Platnova – Junior Developer(Aug 2025 – Present, Part-time / Remote)
- Collaborated on building financial dashboards using React, TypeScript, and Node.js for **500+** users.
- Implemented API integrations, boosting data synchronization by **30%** for fintech workflows.
- Worked within an agile team to deliver scalable fintech solutions.

HNG Internship – Frontend Developer Intern (Feb 2025 – Apr 2025)
- Built responsive web applications using **React.js, Tailwind CSS**, improving user engagement by **20%**.
- Built an AI-powered text processing tool with Chrome AI APIs for **1,000+** text inputs with **95%** accuracy.

JETA Comms Bootcamp – Web Developer Trainee (Oct 2022 – Aug 2023)
- Built a computer-based testing (CBT) platform streamlining assessments.
- Developed a dictionary app, enhancing user access to **10,000+** word definitions.

PROJECTS

Arbitrum Token App (Blockchain Fintech Platform)
- **Winner – Arbitrum Builders Bounty Challenge (StackUp, 2025)**
- Developed a **decentralized token management platform** on Arbitrum using React, Solidity, and Ethers.js, enabling secure token minting and transfers.

ALATPayFreelanceFlow (Fintech Invoicing Platform).
- Designed secure invoicing system using ALATPay APIs, cutting errors by **15%** for freelancers

SeeForMe
- **2nd Place, AI in Medicine Competition (DATICAN, 2025).**
- Led frontend development, integrating image processing APIs for **90%** accurate obstacle detection.

Recipe Recommender
- **Hackathon Finalist – Top 10 out of 100+ applicants.**
- Built an **AI-driven chatbot** for recipe suggestions based on ingredients & allergies.

CareLoop (AI HealthTech Solution)
- **Top 10** in **Meta × Nithub Hackathon** (**2025**) with **3-person** team.
- Built AI-powered patient follow-up system using **React, Node.js, and Twilio APIs**, automating communication for **100+** simulated patients.

LEADERSHIP & VOLUNTEERING

Cowrywise Ambassador & Student Tutor – Redeemer's University (Oct 2024 – Present)
- Promoted financial literacy to **30+** students.
- Mentored **50+** students in Mathematics and Physics, improving pass rates by **10%**

Media Team Member – RCCG Christway Chapel (Jan 2023 – Present)
- Managed livestream tech operations, ensuring **100%** uptime for events with **200+** viewers

SKILLS

- **Languages & Frameworks**: React.js, Next.js, JavaScript (ES6+), Tailwind CSS, Typescript, Python, Git/GitHub, API Integration, Responsive Design, CI/CD Basics. **Other**: AI/ML Frameworks, Data Security.
- **Soft Skills:** Problem-Solving, Teamwork, Communication, Leadership.
