

Ayomide Taiwo

Software Engineer | Fintech & AI Systems | 5× Hackathon Winner

+2349168897258 ayomidepaul784@gmail.com linkedin.com/in/taiwoayomide github.com/dev-ayomide devayomide.vercel.app

Education

Redeemer's University

Ede, Osun State, Nigeria

B.Sc. Computer Science | CGPA: **4.92 / 5.00** — First Class Honors

Expected 2027

- **2× Dean's List** · Gold Scholar (2023/24) · Bronze Scholar (2024/25)
- Relevant Coursework: Data Structures & Algorithms, Artificial Intelligence, Database Systems, Software Engineering

Experience

Platnova

Aug 2025 – Mar 2026

via Engineer Contractor | Fintech Admin Dashboard

Remote

- Built and iterated on the **customer-facing payments app**, deposit flows, virtual card forms, and transfer method performance optimizations using React and Vite.
- Collaborated with product, design, and engineering teams to develop **admin dashboard** features including **KYB reviews**, merchant wallet management, and settlement workflows.
- Worked on the **core marketing site** across multiple page types (home, business, personal, cards, international transfers) with heavy focus on mobile responsiveness, navigation, and visual consistency.

Campor

Oct 2025 – Present

Co-Founder & Frontend Engineer

Redeemer's University

- Co-founded a **live campus marketplace** serving **8,000+ students** at Redeemer's University; leading frontend development, product decisions, and user onboarding from idea to launch.

Projects

NairaLedger | FastAPI, PostgreSQL, Redis, ARQ, LangGraph, Pydantic v2, Pytest

2026

- Built a **production-grade payment API** handling accounts, deposits, and transfers with strict financial correctness: money stored in **kobo not naira**, **idempotent requests**, and **row-level locking** to prevent race conditions on concurrent transactions.
- Designed an **async job queue** using Redis and ARQ for transfer processing, with **webhook delivery**, exponential backoff retries, and a dead-letter queue so no transaction is ever silently lost.
- Layered a **natural language AI agent** (LangGraph) on top where users can query balances, view transactions, and initiate actions in plain English, with **persistent memory** across sessions and switchable model providers (Groq, Gemini, Claude).

WhatsNaija AI | FastAPI, Claude Haiku, Next.js, Supabase, Paystack, WhatsApp Business API

2026

- Built a **multi-tenant SaaS** platform that lets **Nigerian small businesses** run customer service, orders, and billing entirely through WhatsApp. Each business gets its own **AI configuration**, onboarding flow, and Paystack-integrated billing, all managed through a Next.js dashboard I built.

Fusion | React, Remotion, Node.js | 2nd Place — Interswitch × Enyata Buildathon

2026

- Type a prompt, get a **motion design video**. Fusion turns natural language into fully editable React/Remotion scene components, complete with a **multi-track timeline editor** and brand asset extraction from a URL drop; **built in 4 days**.
- Demoed live at **Interswitch HQ** to judges including the Enyata CEO; placed **2nd out of 500+ teams**.

SeeForMe | React, Image Processing APIs | 2nd Place — DATICAN AI in Medicine (2025)

2025

- Built the **frontend** for an **AI-powered assistive platform** for visually impaired users, integrating image processing APIs that achieved **90% obstacle detection accuracy**.
- Won **2nd place** out of **25+ teams** at the DATICAN AI in Medicine Hackathon, hosted in collaboration with Redeemer's University.

Technical Skills

AI & Agents: LangGraph, Claude API, OpenAI API, Groq, Gemini, Chrome AI APIs, Evals, Prompt Engineering

Backend: FastAPI, Python, SQLAlchemy async, Redis, PostgreSQL, Supabase, REST APIs, Pytest

Frontend & Other: Next.js, React.js, TypeScript, Tailwind CSS, JavaScript (ES6+), Paystack, Webhook architecture, Git, Solidity

Leadership & Community

RUNTECHSPACE — Redeemer's University

Aug 2025 – Present

Frontend Stack Lead

- Lead frontend technical direction for the campus tech community; mentor **junior developers** on React, Next.js, and modern web development practices across workshops and learning sessions.

Cowrywise Financial Literacy Ambassador & Student Tutor

Oct 2024 – Present

Redeemer's University

- Promoted financial literacy initiatives across campus while mentoring over **50** students in Mathematics and Physics, contributing to improved academic performance.
